A
Wheat, farmer nitrogen
Simulated yield (t ha^{-1})
Observed yield (t ha^{-1})
r = 0.01
Mean absolute
percentage error = 29%
n = 15 states
B
Wheat, calibrated nitrogen
Simulated yield (t ha^{-1})
Observed yield (t ha^{-1})
r = 0.74
Mean absolute
percentage error = 12%
n = 15 states
C
Pearl millet, farmer nitrogen
Simulated yield (t ha^{-1})
Observed yield (t ha^{-1})
r = 0.04
Mean absolute
percentage error = 31%
n = 9 states
D
Pearl millet, calibrated nitrogen
Simulated yield (t ha^{-1})
Observed yield (t ha^{-1})
r = 0.28
Mean absolute
percentage error = 24%
n = 9 states
